COMING EVENTS.—Let no one say that the mind has no power over the body. If it can cause such effects as in the case taken from the Berlin Uk, how much more can it influence the physical conditions of the here and now!

"You look pale and thin; what's got you?"

"Work from morning till night and only one hour's rest."

"How long have you been at it?"

1st. Beginning at a buckeye the southwest corner of Rans Chastains six hundred acre survey, thence E to Slate Creek, thence up Slate Creek on west side of the mouth of Bull's Branch, thence tak the middle of Slate Creek up the same, opposite the corner of John Parker, thence E to a stake near a beech tree, thence N 80 poles to Ragland's corner a stake, thence west with Ragland's line 242 poles crossing Slate Creek to a hickory tree on the west side of Slate Creek, thence south to the creek, thence up the creek on the west side thereof to Chastain's original line, thence with said line S to the beginning, containing 136 acres, excluding therefrom, however, 5 acres, 3 roads, and 21 poles of land conveyed to James M. Jones by Ann Wilson on March 5, 1868; also 4 acres of land conveyed therefrom by M. P. Stephens to John Jones; and also 5 acres, 2 roads and .02 poles of land conveyed therefrom by Ann Wilson to J. Goodpaster on March 13th, 1857; to which deeds and the records thereof in the Bath County Clerk's office, reference is hereby made for a specific description of said exclusions, leaving in the whole of said boundary about one hundred and twenty one acres of land, being the same land conveyed to said H. C. Mead by J. B. Goodpaster by deed of date the 14th day of Feb'y., 1899, and now duly of record in deed book 54, at page 359, in the Bath County Clerk's office.

And the other adjoins the above described tract and is described as follows:

2nd tract. A certain lot, tract, or parcel of land bounded on the north by the lands of Robt. Donaldson, on the east by the lands of Carpenter and those above described, on the south by the lands of Jack Suttell and Shelby Carpenter, and on the west by the lands of Robt. Donaldson, containing therein seventy-six acres of land, more or less; being the same land conveyed to said H. C. Mead by Jacob Warner, by deed of date the 8th day of June, 1901, and now duly of record in deed book 57, at page 56, in the Bath County Clerk's office. Both parcels will be sold as one tract.

Sale will be made on a credit of six months; the purchaser will be required to execute bond with good surety for the purchase price payable to the master commissioner, bearing six per cent. interest per annum from date of sale until paid and having the force of a replevin bond. The purchase price will remain a lien on the land until it is paid.

If you are afraid people will find it out don't do it.

Several large fortunes have been made by picking up money that has been thrown away.

A coal mine has been burning since 1901 immediately beneath the homes of 500 residents of Carbondale, Pa.

Statistics collected by the government indicate that the nation has consumed about 7,000,000,000 tons of coal up to the present time. Nearly half of this has been used in the last ten years.

Vegetarian experts assert that one acre of land will comfortably support four persons on a vegetable diet.

A whole tree, minus leaves and small branches, has been found petrified in Arizona.

Some people who are selfish in other respects never think of keeping their opinions to themselves.

COULDN'T GO THE LAST.—An Irishman had just come over and being hungry, went to one of the swellest hotels in New York. When the waiter came he ordered him to bring the best they had.

After being out a few minutes he returned with a glass of water, a bunch of celery and a lobster. When about time to check him up the waiter returned to the customer, asking him why he had not eaten his meal.

"Well," replied the man, "I drank the water, smelled the bouquet, but I'll be darned if I could go the bug."

DESERT OF SAHARA.—The largest desert in the world is in the vast region of northern Africa extending from the Atlantic ocean on the west to the valley of the Nile on the east. The length of this immense arid region, the great desert of the Sahara, from east to west is about 3,000 miles and it's area about 2,000,000 square miles. Rain falls in torrents on the Sahara at intervals of five, ten or twenty years. In the summer the heat during the day is excessive, but the nights are often cold. In winter the temperature of parts of the desert is sometimes below freezing.
